## Teacher's corner

### Practical learning

I believe that practical learning is essential because it allows students to think past the theories that have been taught. I believe it extremely crucial to supplement the theory they learn because while CBSE is the core of India's educational excellence the method of examination does not incline itself to apply these theories.

It is a myth that Practical-learning is only useful for technical or management students. Like, History students can visit a museum (even virtual museum) or location of the topic to gain more knowledge than textbooks and will also remember longer. Practical-learning makes the study more fun and engaging for students like for learning swimming and driving you have to get into the water to learn swimming and you have to be out on the road to learn driving.

**Things Successful People Do Differently**

Achievement rarely produces the sense of lasting happiness that you think it will. The researchers found that people who were both successful and happy over the long term intentionally structured their activities around four major needs: **Happiness, Achievement, Significance and Legacy.** Lasting fulfillment comes when you pursue activities that address all four of these needs. When any one of them is missing, you get a nagging sense that you should be doing more. The behaviors that follow are the hallmarks of people who are successful and happy because they address these four needs. Try them out and see what they do for you.

- They are passionate.**
- They swim against the current.**
- They finish what they start.**
- They are resilient.**
- They make their health a priority.**
- They don't dwell on problems.**
- They celebrate other people's successes.**
- They live outside the box.**
- They keep an open mind.**
- They don't let anyone limit their joy.**

People who are successful and happy focus on activities that address a variety of needs, not just immediate achievements.

*What other habits can make you happy and successful in the long term? Please share your thoughts in the comments section below, as I learn just as much from you as you do from me.*

काल (कविता)

काल काल काल,  
काल बताए समय का  
हाल।

भूतकाल में करता था,  
जाता था और खाता था।  
बीत गया मैं चला गया,  
अब न वापिस आऊंगा।

अब मैं हूँ वर्तमान में,  
काम जिसमें हो रहा है।  
हम बाजार जा रहे हैं।  
रवि पढ़ाई कर रहा है।

अब हम सोचेंगे भविष्य की,  
होगा वही जो तुम चाहोगे।  
कक्षा में प्रथम आओगे।

अनुमान है वर्षा होगी।  
मम्मी पकौड़े बनाएगी।  
हम सब मिलकर खाएंगे।

सीख लिया हमने है काल  
जान लिया है समय का हाल  
भूत वर्तमान का आधार है।  
वर्तमान से भविष्य साकार है।

**FATHER**  
To my father,  
My guiding light  
In every situation tight.  
I love you  
For whatever you do.  
My hero forever  
Is tired never.  
To my father  
My heart and soul  
Forever and ever.

**IMAGINARY HIGHWAYS**  
Imaginary highways  
Alone I am walking here with rhythmic steps,  
On this road of mess and these competition treks.  
I think it's enough I should do what my heart says,  
That play some music and just go walk through the in  
highways.  
These highways leading me to my hidden fantasy che  
Where I can sit in peace and stress freely rest.

**Rain**  
Tip, tip, tip, top  
You fall on the ground  
Drop by drop  
Pitter, patter, pitter, patter  
You sound like  
Indistinct chatter  
Then you come  
Rushing down  
Lush green trees  
All around  
I watch you  
From my window  
I see the plants  
Sway high and low  
Rain, rain, come today  
Come again another day  
All the trees dance and sway  
Rain rain every day  
Tip, tip, tip, top  
You fall on the ground  
Drop by drop  
Pitter, patter, pitter, patter  
You sound like  
Indistinct chatter  
I stand on the mead  
Enjoying your music  
Indeed  
Even when your gone  
I feel your calm touch  
Even when you are gone  
I hear you very much  
Rain, rain, come today  
Come again another day  
—Sreeja Chattopadhyay Class 8

## Your opinion matters to us!

My journey with Banyan tree started 2 years back. Teachers are very supportive and encouraging of their students. There have been many positive changes in my daughter after being associated with the school.  
Ms.Swati Sood and Mr. Heera Daspa parents of Ivana Daspa (Grade III)

As parents, we would like to take this prospect to thank the teachers for their continuous care, support, collaboration, and most importantly patience.
