Dear students,

Winter Vacation is here, Hurray!! Have you started listing all exciting things you will do? Why not have fun with a little bit of learning along the way? So, here's a list of some enjoyable learning activities you can do at the noon time. Do them neatly and submit them after the vacations. Here are the ways by which you can make your holidays fun and learning at the same time:

- Go for a walk, talk about things you see around. Speak in English as much as possible.
- Help parents in small household chores like dusting, cleaning and watering the plants.

NOTE: Do all the assignment in a neat and legible handwriting. Parents are requested to just guide the children to complete the task on their own.

EVS Topic- Save Water, Save The Earth

Time is so important, in fact, that if you did not have any, you could not do anything at all. There are many things that we can do with our time: We need to plan our day in such a way so that we can do everything we want to. We can spend our time in productive activities, such as taking physical and mental rest, reading or going for a walk; study; spending time with family; helping others; researching and surfing; exercise etc.

Project

1. Show different timings on clocks for each task you do in a day. You may make a poster or a clay model or a flip book or any other creative way to present it. Mention the task below each clock.
